What to bring?:

Make sure to bring all relevant statements and paperwork with you to your appointment.

As part of our relationship with Fidelity Investments, a team of Workplace Planning and Guidance Consultants come onsite throughout the year to meet with you. They are ready to answer questions you may have about your retirement savings plans or help you obtain information on a variety of additional retirement planning topics.

This can be your ideal opportunity to make sure you are on track with your retirement planning, or obtain information on a variety of additional topics.

If you need help with questions such as:

- > Deciding how much to contribute* and finding ways to help save more
- > Learning more about the Easy Choice options and making exchanges
- > Requesting fund information or performance, or plan literature
- > Updating your beneficiary information

You should call the Partners HealthCare Savings Plan Service Center at Fidelity Investments at **1-855-999-1PHS (1747)**.

***To update your contribution amount, please visit your Partners PeopleSoft site.**

If you would like to:

- > Review your portfolio allocation
- > Make the transition into retirement and identify your retirement planning needs
- > Receive complimentary access to specialists to help with your broader retirement needs
- > Bring multiple accounts together in one place

You should schedule a complimentary on-site appointment with your Fidelity Workplace Planning and Guidance Consultant. It is helpful if you bring all relevant statements and paperwork you have questions about with you.
